

**N.N.V.L.C.C.#214**

## **Trellis / Privacy Screen Colour Options**

To maintain a “consistent look” within our community, residents are offered three colour options for their privacy screens / trellis:

**OPTION 1:** Allow the pressure treated wood to age naturally. It will become an ashy grey colour.

*Option 2*

**OPTION 2:** Stain the entire trellis grey using the Drift Grey SC317 colour stain.

**OPTION 3:**

Stain the upper and lower boards grey using the Drift Grey SC137 stain.

The three vertical posts are stained with the English Walnut WST22-9 (Clear base 92-09) stain.

The lattice can be left natural or stained with a clear transparent stain (NO COLOUR).

\*No other colour scheme will be permitted.

\*Future maintenance of will be necessary to meet the required standards of the community.

*Option 3*
